

Tea Treat Cups

Link: <http://www.wikihow.com/Make-Edible-Teacups>

Recipe

One of each item for each child.

- Ice cream cones, round (choose ones with wide mouths—depending on the brand, they may even be referred to as cups)
- Smooth round cookies; often shortbread style cookies are round with a raised edge, making them perfect for serving as an edible saucer
- Gummy ring candies
- Decorator's icing
- mini marshmallows, 2-3 per child

1. Remove the top of the ice cream cone from the base. Place the cone on its side and gently "saw" the serrated knife through the cone to separate the two sections.
2. Using decorator's icing, "glue" the round gummy ring to the round cookie.
3. Create a cup handle by cutting a gummy ring in half. Glue to the side of the cup using decorator's icing.
4. Once the "tea cup" has set well, fill with 2-3 marshmallows for pretend "tea."
