A quick-reference guide to the worship icon set

WHAT'S INSIDE

SECTIONS

1 Worship Icons Preview Sheet
Your quick reference guide to finding the icons you want.

2 Which File Format to Use
PNG, SVG, or PDF — and when each one is right.

3 Which Visual Version to Use
One icon shown in all 10 style versions, with guidance for each.

4 Naming Key
How to read a filename at a glance.

5 Folder Map
Where everything lives inside the library.

Illustrated Ministry grants CBF a non-exclusive license to distribute these worship icons free of charge to churches in the CBF grant network through December 31, 2029. CBF churches may use the icons in:

- Worship bulletins
- Worship slides
- Printed worship materials
- Digital worship materials
- Congregational resources related to worship and faith formation

CBF and participating churches may not resell the icons, sublicense the icons, distribute the icons as a standalone commercial product, or claim copyright ownership of the icons.

SECTION 1

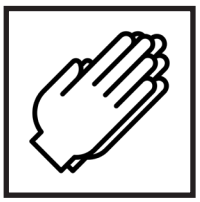
Worship Icons Preview Sheet

Every icon concept, shown once in *WhiteTile_BlackLine* style. Find the name and number here, then look up that icon in any of the 10 style versions.

GREETING
01_Greeting

CONGREGATIONAL SINGING
02_CongregationalSinging

CALL AND RESPONSE
03_CallResponse



PRAYER
04_Prayer

PRAYER (LEADER-LED)
05_Prayer_LeaderLed

CHILDREN'S MOMENT

SILENCE
11_Silence

OFFERING
12_Offering

BAPTISM
13_Baptism

COMMUNION
14_Communion

BENEDICTION
15_Benediction

SECTION 2

Which File Format to Use

PNG FILES
Raster image. Fixed resolution.

Best for slides (PowerPoint/Keynote), Word docs, websites, social media, and anywhere you need to drop in an image. Comes in two sizes: 1200px for screens and slides, 2400px for large-format print or printing bigger than roughly 8×8 inches.

SVG FILES
Vector. Scales to any size with no quality loss.

Best for professional design software (Illustrator, Affinity, Figma, Canva Pro), large banners, signage, laser cutting, or embroidery digitizing. Not ideal for dropping directly into Word or PowerPoint.

PDF Files
Vector. Universal and print-ready.

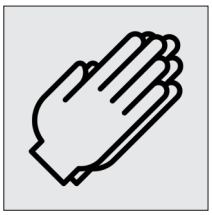
Best for sending to a print shop, placing in a bulletin layout, or sharing with someone who doesn't have design software. Opens on virtually any device.

Not sure?
Use PNG for slides and screens, SVG for design software, PDF for print shops or in-house printing.

SECTION 3

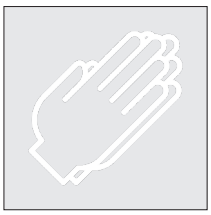
Which Visual Version to Use

Every icon is provided in the same 10 style versions. Shown here: 04_Prayer_01. The grey backgrounds indicate transparent areas and are shown for preview purposes only.



Black outline

Use on white or light backgrounds when you want the outlined style.

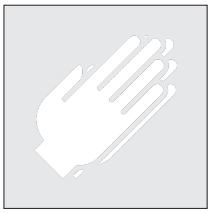


White outline

Use on black, dark, or color backgrounds

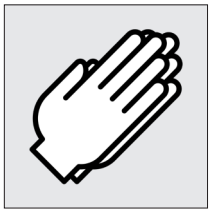
Solid black

Use on white or light backgrounds when you need a bolder icon.



Solid white

Use on black, dark, or colored backgrounds when you need a bolder icon.

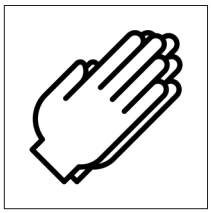


White fill, black outline

Use on colored backgrounds, photos, or textures when the icon needs to stay readable.

Black fill, white line

Use when you want a dark filled icon with white detail.

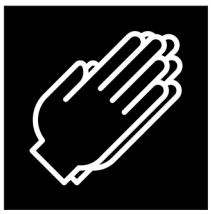


White tile, black line

Use when you want a consistent framed icon on a page.

White tile, black solid

Use when you want a bold framed icon on a page.



Black tile, white line

Use when you want a reversed framed icon.

Black tile, white solid

Use when you want the boldest reversed tile.

SECTION 4

Naming Key

The leading two-digit number (01–15) is just for sorting; it puts the files in worship order in Finder, Explorer, InDesign, or anywhere else you browse them. It matches the numbering on the Icons Contact Sheet.

`SortOrder_IconName_Version_Format/Size.extension`

Examples:

- `04_Prayer_01_BlackLine_Transparent.svg`
- `04_Prayer_01_WhiteFill_BlackLine_Transparent_1200px.png`
- `04_Prayer_01_BlackTile_WhiteSolid.pdf`

What the terms mean:

01–15	Sort order, not alphabetical
1200px	Image size is 1200x1200 pixels
2400px	Image size is 2400x2400 pixels
BlackLine	Black outline icon
WhiteLine	White outline icon
BlackSolid	Solid black icon
WhiteSolid	Solid white icon
WhiteFill_BlackLine	White interior with black outline
BlackFill_WhiteLine	Black interior with white outline
Transparent	No background
Tile	Square background included

SECTION 5

Folder Map

Where everything lives inside CBF_Worship_Icons.

```
CBF_Worship_Icons/
      00_READ_ME/
            START_HERE_Worship_Icon_Guide.pdf — this file
      01_PNG/
            1200px/ — for screens, slides, docs
            2400px/ — for large-format print
                  (10 style folders inside each size — see Naming Key)
      02_SVG/ — vector, for design software
            (10 style folders)
      03_PDF/ — vector, for print shops & documents
            (10 style folders)
      04_Master_Index/
            CBF_Worship_Icons_Master_Index.xlsx — searchable list of all 600 files
```

Each of the 10 style folders (BlackLine_Transparent, WhiteTile_BlackSolid, etc.) contains all 15 icons in that style, numbered so they always sort in worship order. To find one icon in every style at once, search your file browser for its name—e.g. “Prayer” or the full prefix “04_Prayer.”
